Team meeting

15 June 2020 / 14:00 PM

Attendees

Andrei Geadau, Dragos Vecerdea, Alin Dondera, Alex Manolache, Ionut Constantinescu

Topics discussed

1. TA meeting feedback
2. Sprint 4 planning

Notes

- How is the dissemination going, what we still have to do, are we on schedule?
- Create zoom link for tomorrow meeting
- See what can still be improved in the code/repository
- Try to refactor some parts of the code
- Clean the code
- Improve testing
- Update readme details/documentation
- Feedback report (TA):
    - use \` instead of \"
    - privacy: storing data such that users cannot be identified (say this)
    - elaborate why we chose technologies (cloudinary - describe other options we considered (e.g. storing images on heroku directly))
    - TW teacher said that "report is too long". TA said it is ok.
    - cut down the research part a bit
    - proofreading: get the rubric and look at it while reading!
    - reference Appendix A
    - reflection: look at the rubric while writing that
- Presentation:
    - 20 min presentation
    - (video) demo

Action Items

1. Create issues for this sprint
2. Integrate the feedback on final report
3. Start writing the Project Skills part

4. Create zoom link for the meeting with the coach

Next Meeting Agenda

We can have another TA meeting on 22/06. (not mandatory)
